#### Danger Signal.

If the fire bell should rind would you run and stop it or go and help to put out the fire? It is much the same way with a coug. A cough is a danger signal as much as a fire bell. You should no more try to suppress it than to stop a fire bell when it is ringing, but should cure the disease that causes the coughing. This can nearly always Office. ### Bryan Promises to Lend Hand.

Washington, Dec. 6.-An extended conference was held hore between Senator J. C. W. Beckham and Col. W. J. Bryan concerning the prohibition sit- grow fat. uation throughout the country, in which both are interested, but particularly concerning the situation in Ken tucky, today.

Col Bryan expressed the keenest personal interest in the campaign being made in Kentucky by the Democratic temperance committee, and he autherized Senator Beckham to say that he wanted see it succeed.

Senator Beckham, during the conference, urged Col Bryan to attend. if possible, the dinner to be given in Louisville during the latter part of December by this organization, and the latter expressed his pleasure in accepting the invitation.

This means almost certainly that Col. Bryan well make an address on that occasion, which will go far toward strengthening the campaign being made by Dr. Alexander and those

associated with him. It so happens that Col. Bryan has promised to attend an intercollegiate conference in Louisville about the time of the proposed dinner, and his visit there for that occasion will make it ecnvenient to participate in the

He assured Senator Beckham, however, that in any event he would have been glad to have accepted the invitation to attend the December prohibition gathering.

#### No Real Verdict.

Republican reverses began with the Congressional and State election of 1910 The mistakes of the Payne-Aldrich tariff, as protested against by the progressive Republican Senators, would have been enough to bring disaster to the party, even if obnoxous selfishness and arrogance had not afterwards been joined with stupid political management, From Mr. Taft's expression of 1909, until the end last month of the campaign of 1916, the Republican organization has invited its defeats by its own fatuity It has not been beated by Democrats, nearly so much as by itself. Mr. Hughes in his course was doubtless inspired by the laudable desire to serve the country; but the Republican party, as managed by those who dominated the Chicago convention, has not in this great hour proved to be the chosen instrument of destiny. The contest that we have actually witnessed through the campaign period was not the drama that the real public opinion of the country had instructed the parties to stage. The final result, therefore, proved nothing very conclusive If Mr. Hughes had not gone to California at all, he would probably have carried the State on the wave of Hiram Johson's great triumph. That would have made him president; but the general verdict would have been unchanged .-From "The Progress of the World." in the American Review of Reviews for December, 1916 If you want a magazine that will keep you posted, subscribe for the Review of Reviews. 30 Irvine Piace, New York, N Y.

#### Great Times.

Happy-rich is she who is a thriving farmer's wife. With eggs, butter, turkeys, hogs, mules, cattle, tobacco, hay and all farm products selling high and still going higher, the man who lives on the farm is the man of the hour. The wife with her butter, eggs and turkeys, has a fair chance to rival her husband's tobacco crop in reaping financial results. The farmer can't help making money just now, whether he wants to or not. Conditions were never more favorable and the time never more opportune for agricultural pursuits than now, and nobody blames and nobody kicks but the shiftless and inert. Turkeys brought tip top prices, tobacco is reaching the iop notch figures, and all farm products are soaring alike in making the farmer happier and richer The opening of the tobacco market two weeks earlier at this place meant a difference of several thousand dollars to the merchants, which means a whole lot to Glasgow's business circle. When the farmers sell their tobacco, the money loosens up, and times are good, and you can just watch Glasgow

Following one of the big tobacco sales last week, one firm in Glasgow took in \$1,700 cash in one day. Other firms do business in like proportion and now that we are on the toes of X mas buying, business will hum from now on. There was never the like of money affoat as in the country at present.

When a man goes to the sheriff's office to pay a \$2.50 tax bill with a \$20 bill, and this has happened many times of late, then it is we know that prosperity has kicked the stuffing out of hard times and we are living in a land of peace and good times.-Glasgow Times.

She could not digest what little she forced herself to eat. After every meal she was tortured with gas, pain and distress. She had to physic constantly with salts, oil and pills. Her weight dropped from 140 to 110 pounds.

Then she would have heart-breaking spasms of weakness. We tried all sorts of medicines to no effect. Finally we heard of Tanlac from neighbors. My daughter took it.

"Her complete recovery to perfect health was marvelous, simply marvelous. First, she felt like eating. Then her strength came back and her bowels became regular.
